PEPID COMPLETE

PEPID Complete offers interactive resources for certified care professionals, medical educators, and even students still in training. Medical Librarians entrusted with providing health informatics can be confident with PEPID's medical, pharmaceutical, and academic solutions.

Available on any device, through a web browser, and by system integration (EMR, EDIS, HIT)

EMERGENCY CONTENT

Complete medical and pharmacological reference that allows ER staff to quickly find critical information for improved patient safety and speed of care.

NURSING CONTENT

Thousands of diseases and disorders, with pathophysiology, treatment, nursing diagnoses, nursing considerations and patient teaching points.

PEDIATRIC CARE

Pediatric-specific resources including weight-based dosing calculators, 200+ procedural and examination videos, medical calculators, treatment plans and more.

AMBULATORY CARE

Complete reference tool and drug database with immediate access to lifesaving protocols, BLS, ACLS, ATLS, PALS, RSI, procedures and algorithms.

ACADEMIC SUCCESS SOLUTIONS

Evidence based resources with PURLS and clinical inquiries embedded into concentration specific content including nursing, pharmacy, internal family, emergency and more.

LAB VALUES & DIAGNOSTIC TESTS

Hundreds of lab tests, with details including critical values, normal reference ranges, high and low interpretations, screening individuals and technical information.

TRUSTED DIAGNOSIS CHECKER

Quickly access hundreds of instructional videos on topics including neurological, cranial nerve, & abdominal exams, procedures and more.

DRUG-INTERACTION CHECKER

Allows you to check for interactions between a patient's entire medication regimen, including prescriptions, OTCs, herbals, supplements and foods.

MEDICAL & DOSING CALCULATORS

More than 400 medical calculators, equations and scores. Automatically calculate a drug-specific dose to promote medication safety.

DRUG-ALLERGY CHECKER

Check a patient's food or drug allergies with their current list of medications & foods and sends alerts if an allergy or sensitivity exists.

PILL ID AND PILL PICTURES

Properly identify a patient's medications by color, shape or imprint, and then check your results referencing our high-resolution pictures.

BEDSIDE EDUCATION

Give your patients direction and confidence at the bedside with Quick Refs for you to discuss, and handouts for them to review - both a tap away.

GUIDED TUTORIALS

Quickly access hundreds of instructional videos on topics including neurological, cranial nerve, and abdominal exams, procedures & more.
